

## The Evening Bulletin,

DANIEL LOGAN, Editor.

FRIDAY, MAY 8, 1896.

Recorder Goff, who won notoriety by conducting the Lexow investigation in New York, and as a reward was elected to the Recordership of that city, has turned out to be a lamentable failure as a jurist. The Court of Appeals has already reversed six important cases tried by him. In the last decision that Court inadvertently very severely on the numerous and flagrant errors allowed by the new Recorder in the conduct of the trial. It is expected that a very general demand will shortly be made for his resignation on the ground of incompetency.

A telegram from Rome states that the Italian loan of 140,000,000 francs has been covered fifteen times. The greater part of the subscriptions were made in Rome and Milan. It is evident that that loan was of the "popular" variety. When the financial difficulties in which the Italian government is involved and the general poverty of the nation at the present time are taken into consideration it must be admitted that the success of the loan is remarkable.

The scheme of adding the latest weather forecasts to the regular postmarks on the letters will be commenced by the United States Postoffice Department on July 1st. Applications for this service from over forty postoffices have been filed, and it will be introduced first in New York, Chicago and other large cities.

An exchange remarks that a cousin of the German Emperor, Countess Fritz Hohenau, has startled Brussels by introducing this winter the custom of women riding astride when a hunt is in progress. She has organized a class of aristocratic young women who pledge themselves to adopt this style.

Harry Evans, who has acted as turnkey at the Police Station since Jan. 17, 1894, is promoted to the position held by Capt. Hilbus. Officer Melanthy is appointed senior turnkey in Evans's place and officer Fagerous is made second turnkey.

The Rev. Austin Willey, who was just died at Northfield, Minn., at the age of 89, had the distinction of being the first editor of the earliest anti-slavery paper in the country. This was the Advocate of Freedom, which was started in 1839 at Bangor by the Maine abolitionists.

## TO-MORROW'S BOAT RACES.

The Healan Senior Crew is in a Demoralized Condition.

The members of the Healan Yacht and Boat Club are feeling quite bad over the condition of affairs which has resulted in the demoralization of their senior crew. Walker is quite ill with an affection of the liver and although willing enough to do his best has been positively forbidden to row by Dr. Minor, his physician. He was examined this morning by Dr. Murray and Dr. Russell, both of whom agreed with Dr. Minor that the man was physically unfit to row. Young Atkinson was thrown from a horse last week and sprained his wrist, besides getting badly bruised up. He has been in hopes of being able to row when the time came, but at 1 o'clock today his physician, Dr. Herbert, after a thorough examination of his wrist positively forbid his doing so.

In order to fill up the crew Jarrett will be put in, but as he has not had much experience in a racing shell he cannot be expected to do much more than help the others row over the course.

The Healan junior crew is in good shape and think they have a good chance of winning the race.

Both of the Myrtle crews are in excellent training and condition and are equally confident of victory.

This is the exact condition of affairs concerning the four crews, and it is made public so that the people who go to see the races will know just what to expect and have no cause of complaint afterwards.

## A FEW WORDS ON BICYCLES AND CUTLERY.

In a Coast newspaper devoted to the bicycle business we read that dealers in bicycles are authority for the statement that the business aspect of the bicycle trade has materially changed during the past year. Instead of the main business consisting in dealing with men's wheels, quite the contrary is true. Dealers are now doing their utmost to attract the eyes of the women. All of which shows that the ladies are taking very kindly to bicycle riding all over the world. And it is the same here, the demand for ladies' wheels is continually increasing. We have received five of the TRIBUNE LADIES' WHEELS on this steamer and have more on the way. These wheels are of this year's make, direct from the factory, no back numbers, and have all the latest improvements.

We have also a number of Tribune racers and gent's roadsters, and a number of "Zimmy" wheels. This is an entirely new machine, named after the great rider, Zimmermann, and we shall be pleased to explain its merits to intending purchasers.

But we started in to say a few words on CUTLERY, of which we received an immense assortment on the Australia, which is now unpacked and on exhibition. In table cutlery we have an immense variety in new and elegant patterns and all sizes. In pocket cutlery we have a number of new designs. Knives to cut lead pencils and knives to trim your finger nails with, and knives to cut down your expenses with. We have pruning knives which are just the thing for the members of the Legislature to use in cutting down the appropriation bills, and some suitable for the Advertiser man to do his "cheeseparing" with. In fact we have all kinds of knives, large and small, light or heavy, but all of them of the best quality and manufacture.

We have carving knives with ivory, buckhorn or bone handles, butcher knives, skinning knives, knives with corkscrews in them for camping out or staying at home. In fact we have all sorts of knives suitable for all sorts and conditions of people.

## A QUESTION.

Wouldn't you consider a man capable of doing the most intricate work, capable of doing the simple work also?

Would you consider a man capable only of doing the simple work, quite as capable for that work, as the more skillful one?

We have been getting ALL your intricate and difficult work during the years past, now let us have ALL your work which requires less skill; then note after it leaves our hands how much better it looks—see if it does not give you better satisfaction.

Your watch is one of your best friends; it merits the treatment you accord your friends.

We give it such treatment. It is our business. Ten years of satisfactory work have given us the reputation for the best; and yet we are doing better work to day than ever.

We are working just as hard to keep that reputation as we ever did to gain it. We are not content to rest easy, and let the reputation do all the work; the quality will never be lessened.

Do you know that your old key winder can be converted to a stem winder, and that it can be done so it will wind as smooth as melted butter? We have converted a number of them and can convert yours.

## COFFEE ESTATE AND LANDS For Sale.

I am directed to sell at Public Auction on Wednesday, May 27, '96, at 12 o'clock noon of said day at my sales rooms on Queen street, in Honolulu (unless sooner disposed of at private sale) the following described property, namely:

A tract of land of about 2,300 acres in fee simple situated at Kolo and Ololeomana 1 in South Kona, Island of Hawaii, about eight miles by a good road from Hilo, one of the largest villages in Kona. There is an excellent landing on the land itself from where the coffee and other produce could be shipped and a good site for a mill near the landing. Fifty acres of land are in coffee. Roughly estimated there is about seven hundred acres of splendid coffee land lying all on one block on both sides of the Government Road. Eight hundred acres lying above and to the East of the seven hundred acres above mentioned is also excellent land and although at a higher altitude is no doubt also well adapted for coffee culture. The lower land below the coffee belt is suitable for pineapples and sisal. There is a drying house, store and work-rooms, a Gordon's Pulper, laborers' quarters and water tanks at the plantation, and the land is partly walled. There has never been any blight on this land, although coffee was planted a great many years ago. Old residents of Kona like the late D. B. Nahulu, J. W. Kuamoku and others have testified to this fact. There is a sea fishery appurtenant to Ololeomana 1.

Terms cash or part of the purchase price can remain on mortgage at eight per cent per annum. Deeds and stamps at the expense of purchaser.

A map of the property can be seen and further particulars obtained at my sales rooms.
